

Utterly Wretched

Nervous Prostration Long Endured Before Remedy was Found.
Miss Minerva Remington, Upper Barn, Pa., writes: "For several years I had nervous prostration, and was utterly wretched. I lived on bread and beef tea because my stomach would not retain anything else. I took many remedies, but obtained no relief until I took Hood's Sarsaparilla. When I began to gain at once. Am now cured. Pure, rich blood makes good, strong nerves, and this is why Hood's Sarsaparilla, which purifies and enriches the blood, cures so many nervous diseases. Get it today in usual liquid form or chocolate tablets called Sarsatabs."

Clergyman's Son's Testimonial of Tuberculosis Cure

To neglect a cold, bronchitis, lung trouble or consumption is dangerous. We all know how people are to deny they have consumption. It is a flattering disease, and the sufferer is filled with bright hopes of improvement. Call consumption by its own dread name and then take Eckman's Alternative, because it is effective in tuberculosis. No one needs doubt about it—there is plenty of evidence from live witnesses.

Gentlemen: Prior to Feb. 1908, I was located in Rochester, N. Y., suffering with tuberculosis, which developed into consumption. My physician gave me one month to live. I was having terrible night sweats, and mid-day chills and losing flesh rapidly, having gone from 155 to 135 lbs. I coughed and raised continually and became so weak that walking a few feet exhausted me. On my return home, my regular physician gave me little encouragement. My father, who is a clergyman, heard of Eckman's Alternative and induced me to take it. The night sweats and chills disappeared, my cough became easier and gradually diminished and in a few days I developed an appetite, the first in months. I am now in perfect health, back to 155 lbs. I feel certain that I owe my life to Eckman's Alternative.

(Signed) E. H. COWLES,
Eckman's Alternative is good for all Throat and Lung troubles, and is on sale in Norwich by Lee & Osgood Co., and other Druggists. It can also be obtained at, or procured by your local Druggists. Ask for Booklet of Cured Cases, or write for evidence to the Eckman Laboratory, Phila., Pa.

CLUE OF MISSING MAN.

Conductor of New London Train Remembers Passenger Answering to Boswell's Description.
Selectman John A. Gilbert picked up a clue of the missing William Boswell of South Killingly Friday morning, when he interviewed the conductor of the train that leaves here daily just before 11 o'clock for New London. The conductor remembered distinctly that he had answered Boswell's description of the man who was missing. He got on his train at this station Tuesday, and was even able to give a very accurate description of the missing man.

Boswell asked the conductor the fare to Norwich and paid the amount, but when the train reached that city he did not get off, paying another cash fare to New London. On the run from Norwich to New London Boswell made inquiries about the leaving time of the boat from New London to New York at the foot of the trip.

The fact that he inquired about the boat leads his friends to believe that he was contemplating carrying out his often expressed intention of going a considerable distance from his home and drowning himself.

Our Best Customers Prospering.
One important factor in the outlook for trade and industry is the excellent conditions existing in the countries which are the best customers American producers have outside their home markets. The prospect for foreign commerce is entirely different from that which would exist if the times were bad in Great Britain, Germany, Canada, France and Mexico.

But these best patrons of American exporters are all in better than an average state of industrial and commercial activity.
